e-mail info@grandunionhotel.com**

The Golden Triangle is created by following Highway 87 from Great Falls through Fort Benton and on to Havre. Then west on Highway 2 to Shelby and back down Interstate 15 to complete the triangle.

This area is known for its rich agricultural history and modern production of barley, wheat and other grains - making it ideal for our brewery to create one-of-a-kind Golden Triangle beers for your enjoyment.

Sit. Stay. Drink. Enjoy the banks of the Missouri River in the historic Murphy, Neil & Co. mercantile built in 1880. We have entwined the area's rich history into our brewery where each beer has a unique story of how it came to be, tying the past to the present.
